WICKED WIDOWS

Three women meet for lunch in strange circumstances. First of all, the hostess fails to appear. Secondly, they all turn out to be widows and one of them, younger, is still grieving. Gradually, the purpose for the ‘surprise’ lunch becomes clear as the refreshingly positive and often comical attitudes of the older women manages to persuade her that there can be “life after death”.

NEVER TOO OLD

Two old men quietly ‘rust’ away in a nursing home until their sympathetic nurse surprises one of them with an interesting and diverting excursion. His sudden rejuvenation leads the other to insist on the same privilege – with unexpected results.
